

**EDFR6300 Research Methods
HW03**

Name: _____ ID#: _____

Identifying and Operationalizing Variables

**For each research topic, identify the dependent variable (DV) and independent variable (IV).
Develop the topic by operationalizing variables (i.e., Find variables that need to be operationalized).**

1. Are there differences between rural and urban children's attitudes regarding diversity?

IV:

DV:

Variables need operationalization:

2. Is there a relationship between years of post-secondary schooling and social competence?

IV:

DV:

Variables need operationalization:

3. How will learners enrolled in an intensive mathematics program over the summer achieve in math compared to those who are not enrolled in the program?

IV:

DV:

Variables need operationalization:

4. What are the academic variables that account for a successful collegiate experience?

IV:

DV:

Variables need operationalization:
